ABOUT ME

I am an extremely passionate and enthusiastic web geek, more familiar with front-end technologies but with some knowledge of back-end and databases as well. The fact that there is always space for improvement makes me happy because I like to discover, learn and adopt new things. When it comes to coding, my ultimate goal is to know as much as possible. I'm an outgoing person and a real team player.

EDUCATION

BIT - Belgrade Institute of Technology

Front-end web development course
2018

The Academy of Criminalistic and Police Studies

Bachelor's degree, Law
2003-2007
